

I'm a skilled graduate with over 5 years of expertise in high-end residential and multi-story projects, proficient in Revit and ArchiCAD. Through collaborative efforts with developers, builders, and architects, I've developed a practical and holistic grasp of architecture. I thrive on problem solving and creating detailed solutions to address complicated requirements. Now, I'm eager for challenging opportunities to design spaces that leave a positive mark on society, all while continuing my path to registration.

PROFESSIONAL EXPERIENCE

Private Residential

January 2021 - February 2022

Building Designer

Elegant Homes
Home Builder

Direct support to the builder on business & project operations for private residential. Worked on over 10 house constructions using ArchiCAD.

Current Projects

January 2023 - March 2023

Traveling in India

- Explored the heritage & history of the architecture in Jaipur, Delhi & Bangalore

April 2023 - Current

Professional development

- Digital graphics course
- Research into history of architectural styles
- Architectural communication and drawing course

STUDENT EXPERIENCE

2018
Architectural Sustainability Researcher Certified Energy

My commitment to the environment and sustainable living is reflected through the articles that I published on sustainable materials and their use in architecture. Through this writing, I aimed to inspire the industry to embrace more sustainable practices in their projects.

2017
Specification Consultant Specix

Supported clients specification needs for complex projects or specific council requirements.

2017
Architectural Assistant Hungerford Project Services

Collaborated with the architect to produce design and construction documentation for commercial projects ranging from offices to warehouses.

EDUCATION

University of Technology Sydney
2020-2022 **Masters of Architecture**
2015-2018 **Bachelor of Design in Architecture**

VOLUNTARY WORK

2020 - Current
Co-Founder & Co-Editor of Paradise Journal

Paradise is an online journal for Australian architecture and research. It operates in the present moment of endless apocalypse, at the very height of our global anxiety. The end of something is just the beginning of something else. Bad omens are the growing pains of a body in transformation.

2021
SONA Representative for UTS

SONA (Student Organised Network for Architecture) is a support network for the students of architecture and as a representative I facilitated advocacy for students and their professional development

2020 - 2023
ISKCON Sydney Temple

Independently worked with the community to research and understand their needs before producing concept designs and documentation for an addition and extensions project.
